

Round table I: *“Building a European Glut1 Network*

5-7 min presentations by Glut1DS support groups

Moderators: Trudy Morgan (Glut Deficiency UK)

Glenna Steele (Glut1 Deficiency Foundation, USA)

Patient advocacy organizations play a critical role in providing support, resources, and a voice for patients and families, but they also are part of an essential network of stakeholders who can help improve patient care and drive research progress in the most meaningful ways. Learn about the work of the European Glut1DS patient advocacy organizations and explore ways to better engage and connect our communities and work collaboratively to improve lives through our shared missions and goals.
